

UNLINKING AND RE-LINKING A MOBILE DEVICE

Unlinking a user ID from the Mobile Microphone on your Device

1. Open the M*Modal Mobile Microphone application on your device.
2. Access User Settings by selecting the gear icon ⚙️ on the top right side of the app.
3. Select your Account under FD Connection.

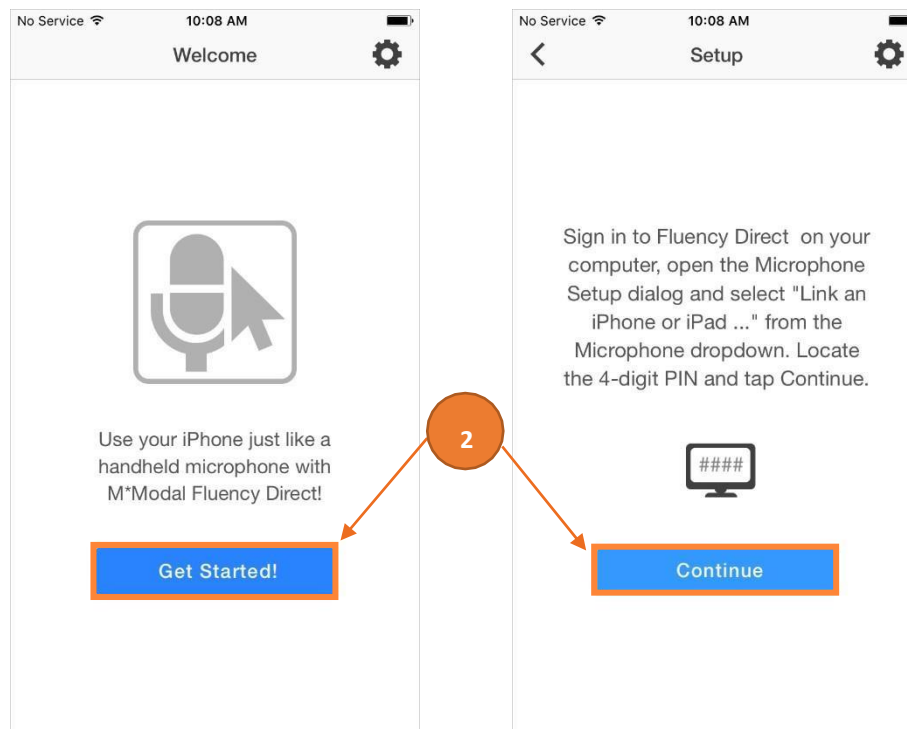

Note: There may be multiple accounts depending on setup.

4. Choose Unlink.

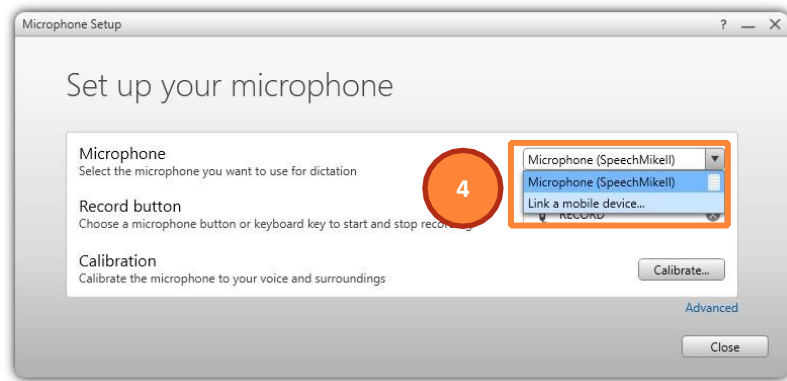

Re-Linking a user ID to the Mobile Microphone on your Device

1. Open the 3M Mobile Microphone.
2. On the Welcome screen. Click the Get Started link to begin.

Note: You will be prompted to sign into Fluency Direct on your desktop or laptop computer to connect the microphone.

3. Within Fluency Direct, select Microphone Setup from the Control Bar menu.
4. Select Link a Mobile Device from the Microphone dropdown menu.

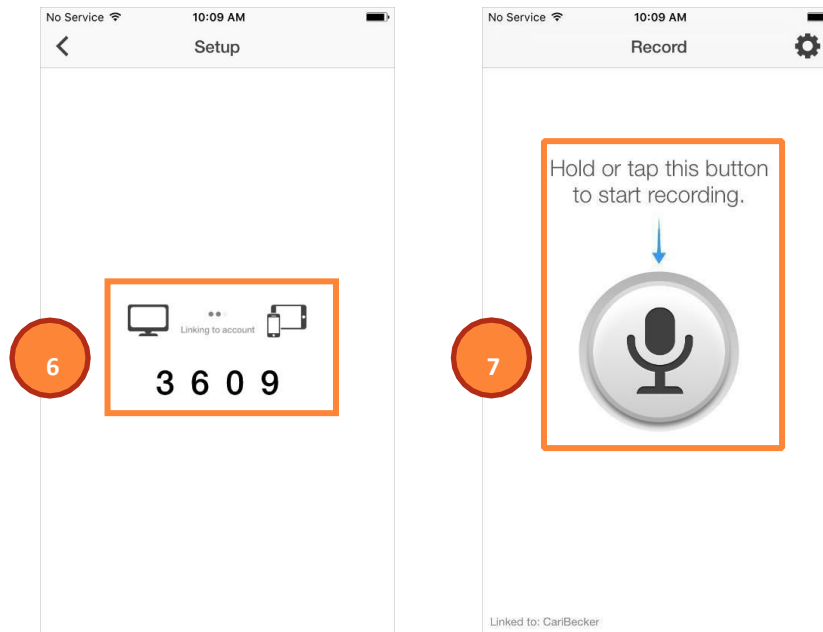

5. Fluency Direct will present you with a code which serves as a one-time linking between your Fluency Direct User ID and your phone.

Note: Any time you load or switch to the 3M Mobile Microphone on your mobile device, the mobile mic will be treated as a microphone source for the last instance of Fluency Direct logged into with your User ID.

6. Access the 3M Mobile Microphone from your mobile device and enter the Code.
7. Tap the microphone to initiate microphone recording.

Note: The microphone indicator will display in green when you are dictating.
